Innovative and performance-driven Product Owner with over 5 years of experience in leading cross-functional teams, driving digital product development, and delivering impactful solutions that enhance consumer experiences.

WORK EXPERIENCE

Capital One   2021 – 2024
Senior Associate Product Manager | Chicago, IL

- **Cross-Functional Collaboration:** Coordinated communications with external partners and internal platform teams to successfully launch new credit cards to market across various retailers
- **Card Authorizations and Settlements:** Onboarded 2.1M+ customer accounts to Capital One card authorizations and settlements systems through new product launches to market
- **Digital Wallets:** Drove development on new features such as digital wallet authorizations through Capital One internal systems, resulting in advanced functionality for end users
- **Agile Methodology:** Managed Scrum Master duties for tech teams specializing authorization and settlement domains, including prioritization and development of roadmaps, agile ceremonies, and supporting card partners
- **Product Development:** Drove development to automate product launch tasks for authorizations and settlement domains to increase efficiency of product launches and decrease incident rates
- **New Product Ideation:** Identified and implemented new team intents through analysis of product data and communications with key stakeholders including external partners and platform domain experts
- **Team Culture:** Supported committee to improve onboarding experience for new associates, including formation of mentorship program, lunch & learns, and experience retros

Procter & Gamble   2020 – 2021
Product Manager | Cincinnati, OH

- **User Research:** Drove engagements with external groups to drive iterative learning goals through consumer usage experience testing and define scope for product enhancements
- **Internet of Things:** Lead meaningful additions, including web-based connected experience, to smart-home product line from ideation to market launch through technical data analysis and consumer testing with figma designs
- **Product Development:** Enabled UX/UI updates for product applications by coordinating with design teams and identifying requirements for design improvements for customer satisfaction
- **Customer Education:** Filmed and edited product videos for customer education and troubleshooting to improve user experience with product and application processes
- **Cross-Functional Collaboration:** Interfaced between Engineering and Business teams to define and deliver product readiness requirements for smart device operations model and change management processes

Ethicon Endo-Surgery Inc.
R&D Co-Op | Cincinnati, OH   2018, 2019

- **Project Management:** Responsible for end-to-end management of project including leading design reviews, interfacing between mechanical and electrical engineering teams, and creating project schedules
- **Electrical Design:** Designed circuit schematics and PCB layout for Capacitive Touch and NFC Sensors
- **Internet of Things:** Prototyped and tested circuits for transmitting sensor data through Bluetooth in endo-mechanical surgical devices
- **Circuit Simulations:** Performed Design Failure Mode and Effect Analysis (DFMEA) using circuit simulations to design requirements to prevent life-threatening device failures
